About ME

I am a front-end web developer since I started learning how to code. This makes me think how much fun it is when I write code, so I consider it my life, now I can create high-quality adaptive layouts on your design or adapt your website to your corporate identity. or other front-end tasks.

Experience

HoTel project

i create this web site with Pug-js, CSS3, and some JavaScript
i have used Glup-js to
Compile and convert SCSS files into a CSS file and add prefixes to fit the old browsers and reduce their size
Compile, convert Pug-js files into pretty HTML file
Reduce JS file size
