PROJECTS

CutUrl (Node.js(Express))

https://github.com/eidsid/CutURL

I created this site using node.js MongoDB mongoose I used mongoose to connect my app to the database (MongoDB), override method to create delete post in html form ,dotenv to store my DBlink , EJS template for client-Side view ,path for use my public folder that contains css file and JavaScript

taskmanager (Node.js(Express))

https://github.com/eidsid/taskmanager

I created this site using node.js MongoDB mongoose I used mongoose to connect my app to the database (MongoDB), override method to create delete post in html form ,dotenv to store my DBlink , EJS template for client-Side view ,path for use my public folder that contains css file and JavaScript

HoTel (Gulp.js)

https://cutt.ly/vUK8yaE

i create this web site with Pug-js, CSS3, and some JavaScript i have used Glup-js to Compile and convert SCSS files into a CSS file and add prefixes to fit the old browsers and reduce their size Compile, convert Pug-js files into pretty HTML file Reduce JS file size

Restaurant (Gulp.js)

https://cutt.ly/mTE2k77

i create this web site with PugJS, CSS3, and some JavaScript i have used Glup-js to Compile and convert SCSS files into a CSS file and add prefixes to fit the old browsers and reduce their size Compile, convert Pug-js files into pretty HTML file Reduce JS file size

ABOUT

I'm a Full Stack Web Developer since I started learning how to This code makes me think how much fun it is when I write An icon and it makes me hungry to learn, so I consider it my life.

SKILLS

HTML JavaScript CSS SASS Node.js
Rest API Express MongoDB MY SQL
Vue.js Git , GitHub Pug.js , jade , Ejs
Gulp.js React.js

LANGUAGES

English ● ● ● ● ●

Arabic ● ● ● ● ●

EDUCATION

Master of Computer Web Development Professional

Udacity 2021
